

Excellence in Fixed Dose Combinations for Prevention & Nutrition

Softigel by Procaps
Nutraceutical
product line

Looking for the ideal
nutritional product
for your pipeline?

The image features a central graphic of two hands, one from the left and one from the right, cupping a glowing blue sphere. The hands are rendered in a semi-transparent, reddish-pink hue. The background is a complex, abstract pattern of tangled, glowing lines in shades of red and blue, creating a sense of depth and complexity. The overall lighting is soft, with the blue sphere being the brightest element.

**Have you thought of
combining different
formulations into one single
product but haven't found
the right one?**

Your perfect product
lies here..

Introducing...

EXCELLENCE IN FIXED COMBINATIONS

unigel

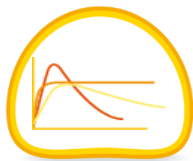

Achieving excellence in fixed dose combinations with Unigel™

Unigel™ is a unique technology that allows combining capsules, tablets or pellets within a single, larger soft gelatin capsule

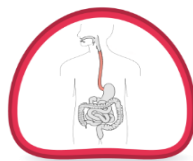

Unigel™ (US Patent No. 8,967,989B2) is the only technique available for fixed dose combinations which incorporates the benefits of the soft gelatin capsule dosage form.

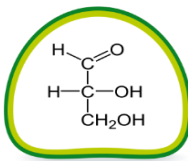

Some of the advantages of Unigel™ include:

Single or Multiple active ingredients with different release profiles

Sustained and immediate release sites

Multiple active ingredients with chemical incompatibility concerns

Multiple active ingredients where at least one is a liquid or a semisolid

Any combination of the above

Benefits of Unigel™ for the *product*

Exact
Dosing

Improved bioavailability
of poorly soluble and poor
permeability drugs

Avoids degradation by
Oxygen due to it's hermetic sealing

Improves the risk-benefit
relation (greater effect than
drugs separately, without
major side effects)

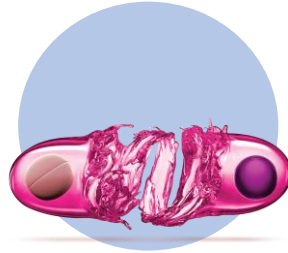

Reduces costs while
combining two or more
drug products in one
single dose

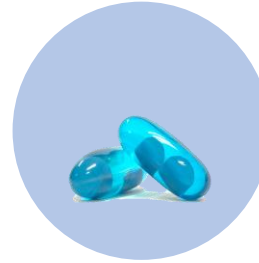

Benefits of Unigel™ for the *consumer*

Major security, content impossible to falsify

Faster action and absorption

Physical appealing product

Easy and comfortable swallowing

Better adherence: avoiding patients to forget taking two or more different medications

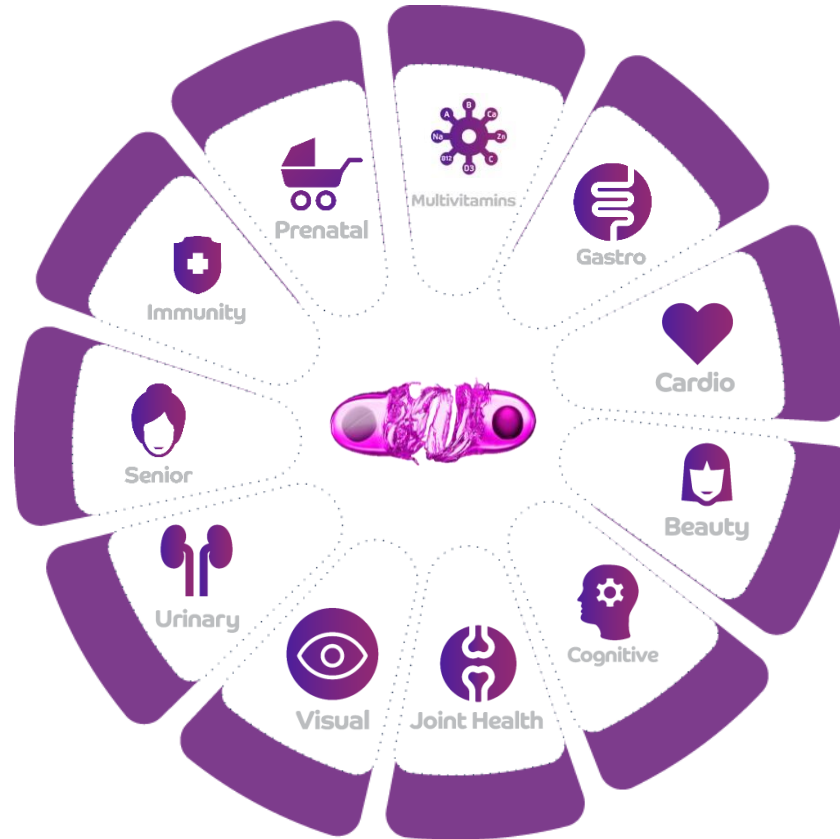

Reduces medication error & the number of prescriptions to take per day

PRODUCTS

Unique formulations and combinations for different product categories:
